

# JOURNAL OF EXPERIMENTAL ORTHOPAEDICS

## JEO Grants for Young Researcher in Clinical and Basic Science Application Guidelines

The Journal of Experimental Orthopaedics (JEO) is an international Open Access journal that aims to bridge the gap between orthopaedic basic science and the clinics, and publishes papers across the entire orthopaedics field, including basic science and clinical research studies. The journal also welcomes translational and epidemiological studies, across all aspects of musculoskeletal disorders.

Deadlines will be announced on the JEO website: [jeo.esska.org](http://jeo.esska.org)

The Grant will cover the total processing fee for the publication of an article in JEO.

Once the manuscript is accepted for publication, the authors will transfer the Publisher's invoice to the JEO Editorial Office and the journal will cover the total APC.

### Data Protection and Copyrights

The author is responsible for the data collection and manuscript preparation, and to ensure that the applicable data protection laws and institutional review board approval have been respected and no copyrights have been violated.

All information must be provided in English.
